

General Data Protection Regulation (GDPR) – H5 Adventure

Key details

- Policy prepared by : Paul Webb
- Approved by board/management on : 13 February 2021
- Policy became operational on: 13 February 2021
- Next review date: 13 February 2024

Introduction

H5 Adventure needs to gather and use certain information about individuals.

These can include customers, suppliers, business contacts, employees and other people the organisations has a relationship with or may need to contact.

This policy describes how this personal data must be collected, handled and stored to meet the company's data protection standards – and to comply with the law.

Why this policy exists

This GDPR policy ensures H5 Adventure:

- Complies with data protection law and follow good practice
- Protects the rights of staff, customers and partners
- Is open about how it stores and processes individuals' data
- Protects itself from the risks of a data breach

GDPR law

The GDPR came into Law on 25th May 2018 describes how organisations – including H5 Adventure – must collect handle and store personal information.

These rules apply regardless of whether data is stored electronically, on paper, or on other materials.

H5 Adventure Ltd

19 Thornhill, Royal Wootton Bassett, Wiltshire SN4 7RX

Registered in England No. 05744066 VAT Registration No. 114376039

To comply with the law, personal information must be collected and used fairly, stored safely and not disclosed unlawfully.

The GDPR is underpinned by eight important principles. These say that personal data must:

- 1 Be processed fairly and lawfully
- 2 Be obtained only for specific, lawful purposes
- 3 Be adequate, relevant and not excessive
- 4 Be accurate and kept up to date
- 5 Not be held for any longer than necessary
- 6 Processed in accordance with the rights of data subjects
- 7 Be protected in appropriate ways
- 8 Not be transferred outside the European Economic Area (EEA), unless that country or territory also ensures an adequate level of protection

 - c) Evaluating any third-party services the company is considering using to store or process data. For instance, cloud computing services

- The marketing manager Paul Webb is responsible for :
 - a) Approving any data protection statements attached to communications such as emails and letter
 - b) Addressing any data protection queries from journalists or media outlets like newspapers
 - c) Where necessary, working with other staff to ensure marketing initiatives abide by data protection principles

General staff guidelines

- The only people able to access data covered by this policy should be those who **need it for their work**
- Data **should not be shared informally**. When access to confidential information is required, employees can request it from their line managers
- **H5 Adventure will provide training** to all employees to help them understand their responsibilities when handling data
- Employees should keep all data secure, by taking sensible precautions and following the guidelines below
- In particular **strong passwords must be used** and they should never be shared
- Personal data **should not be disclosed** to unauthorised people, either within **the company or externally**
- Data should be **regularly reviewed and updated** if it is found to be out of date. If no longer required, it should be deleted and disposed of
- Employees **should request help** from their line manager or the data protection officer if they are unsure about any aspect of data protection

Data storage

These rules describe how and where data should be safely stored. Questions about storing data safely can be directed to the IT manager or data controller

When data is **stored on paper**, it should be kept in a secure place where unauthorised people cannot see it

These guidelines also apply to data that is usually stored electronically but has been printed out for some reason:

- When not required, the paper or files should be kept in a **locked drawer or filing cabinet**
- Employees should make sure paper and printouts are **not left where unauthorised people could see them**, like on a printer
- **Data printouts should be shredded** and disposed of securely when no longer required

When data is **stored electronically**, it must be protected from unauthorised access, accidental deletion and malicious hacking attempts:

- Data should be **protected by strong passwords**
- If data is **stored on removable media** (like a CD or DVD) these should be kept locked away securely when not being used
- Data should only be stored **on designated drives and servers**, and should only be uploaded to an **approved cloud computing services**.
- Servers containing personal data should be **sited in a secure location**, away from general office space
- Data should be **backed up frequently**. Those backups should be tested regularly, in line with the company's stand backup procedures
- Data should **never be saved directly** to laptops or other mobile devices like tablets or smart phones
- All servers and computers containing data should be protected by **approved security software and a firewall**

miss, of which, we will keep this data for 7 years after the attended with us, as this is the length of time, of which a legal case could be brought against us with regard an incident.

We will not keep or share any data from any client onto anybody outside H5 Adventure Ltd.

Data use

Personal data is of no value to H5 Adventure unless the business can make use of it. However, it is when personal data is accessed and used that it can be at the greatest risk of loss, corruption or theft:

- When working with personal data, employees should ensure **the screens of their computers are always locked** when left unattended
- Personal data **should not be shared informally**. In particular, it should never be sent by email, as this form of communication is not secure
- Data must be **encrypted before being transferred electronically**. The IT manager can explain how to send data to authorised external contracts
- Personal data should **never be transferred outside of the European Economic Area**
- Employees **should not save copies of personal data to their own computers**. Always access and update the central copy of any data

Data accuracy

The law requires H5 Adventure to take reasonable steps to ensure data is kept accurate and up to date.

The more important it is that the personal data is accurate, the greater the effort H5 Adventure should put into ensuring its accuracy.

It is the responsibility of all employees who work with data to take reasonable steps to ensure it is kept as accurate and up to date as possible.

- Data will be held in **as few places as necessary**. Staff should not create any unnecessary additional data sets

- Staff should **take every opportunity to ensure data is updated**. For instance, by confirming a customer's details when they call
- H5 Adventure will make it **easy for data subjects to update the information** H5 Adventure holds about them
- Data should be **updated as inaccuracies are discovered**
- It is the marketing manager's responsibility to ensure **marketing databases are checked against industry suppression files** every six months

Subject access requests

All individuals who are the subject of personal data held by H5 Adventure are entitled to :

- Ask **what information** the company holds about them and why
- Ask **how to gain access** to it
- Be informed **how to keep it up to date**
- Be informed how the company is **meeting its data protection obligations**

If an individual contacts the company requesting this information, this is called a subject access request.

Subject access requests from individuals should be made by email, addressed to the data controller at office@h5adventure.com. The data controller can supply a standard request form, although individuals do not have to use this.

Individuals will be charged £50 per subject access request if over 18 years of age and free if for anybody over 18 years of age. The data controller will aim to provide the relevant data within 28 days.

The data controller will always verify the identity of anyone making a subject access request before handing over any information.

Disclosing data for other reasons

In certain circumstances, the Data Protection Act allows personal data to be disclosed to law enforcement agencies without the consent of the data subject.
