

# Site Specific Risk Assessment

Risk Assessments are not confined to those stated below. There are 3 types of Risk Assessments:

1. Generic Risk Assessments – Can be found within H5 Adventure Ltd.’s Health and Safety Policy and to be used in conjunction with this Site-Specific Risk Assessment.
2. Site Specific Risk Assessments – which are carried out before the commencement of activities.
3. Ongoing Dynamic Risk Assessments – these are not written assessments, but ones often conducted naturally, by all staff.

The Lake, Wiltshire. SN4 7RX		Conducted By: Paul Webb		Authorized By: Paul Webb		Date Completed: January 2023 Revised: December 2024 by Rikki Crossley	
HAZARD	WHO MAY BE HARMED	RISK			CONTROL MEASURE
